PROJECTS

Recipe Hub | GitHub: github.com/dbreznay/Recipe-Hub | Deployed App: dbreznay.github.io/Recipe-Hub/
- An application for busy individuals that allows a user to search for a recipe by entering ingredients that they have on hand.
- Built with Bulma, jQuery, AJAX and the use of two API's.

Popcorn Bucket List | GitHub: github.com/demi0504/brutal-butterflies | Deployed App: still-reef-39883.herokuapp.com
- An application that allows a movie lover to search and save movies to a watchlist.
- Built with Bootstrap, Handlebars.js, Node.js, MySQL, Sequelize, Express and Passport.js.

Lager-Logger | GitHub: github.com/dbreznay/Lager-Logger | Deployed App: lager-logger1.herokuapp.com
- A MERN stack online gaming application that allows users to play the drinking game Ring of Fire with their friends. The application features a realtime communication forum by utilizing Socket.IO.
- Built with MongoDB, Express, React.js, Node.js, Passport.js, Socket.IO and React-Reveal.
